

DomiOP eBIS50C

The eBIS50C embedded Building Information System (eBIS) is a wall mount touchpanel designed for applications in building automation. It features a 15" TFT color graphic display with touchscreen interface. Support for 64K colors in the brilliant TFT display renders realistic images. The integrated 10/100 Ethernet interface and the modular communication architecture makes it the ideal solution for integration in building networks.

- 15" TFT color display, 64K colors
- XGA (1024x768 pixel) resolution
- Resistive touchscreen
- 10/100 Ethernet interface
- USB host port for flash drives.
- Modular bus interface for KNX EIB (requires optional plug-in modules)
- Compatible with video input module
- Designed for wall/flush mount

Highlights

The eBIS interface panels are part of the family of touchscreen products. All of the eBIS products support the rich common functionality of the UniOP interface panels:

- Powerful and intuitive programming with the UniOP Designer 6 software
- Supports popular building automation networks such as KNX EIB and others (optional modules required)
- Integrated 10/100 Ethernet port for integration in larger control systems and for programming the device with Designer.
- USB host port for flash drives.
- Dual-driver communication capability
- Vector graphic capabilities including the support of multiple layers and object transparency.
- Video input option
- Display dynamic data in numerical, text, bargraph and graphic image formats
- Data acquisition and trend presentation. Trend data can be transferred to an host computer using the Ethernet connection.
- Analog gauge objects
- Powerful macro editor to configure touchscreen operation
- Recipe data storage. Recipe data can be transferred to an host computer using the Ethernet connection
- Multilanguage applications. The number of runtime languages is limited only by the available memory. All text information in the application can be exported in Unicode format for easier translation.
- Alarms and historical alarm list. Alarm and event information can be printed or transferred to an host computer using the Ethernet connection
- Eight level password protection
- Report printing to serial printer. Reports are freely configurable using Designer
- Ethernet-based UniNet network to share data between UniOP devices and to serve data using UniNet OPC Server
- Wall box available to optimize mounting in all kind of walls
- Optional color faceplates

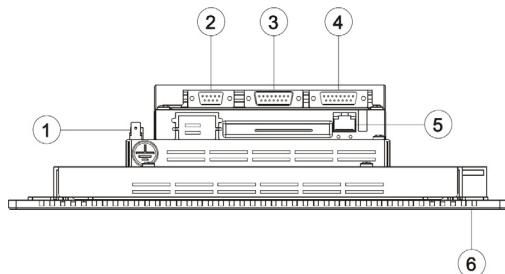

Technical Data

Display		Recipe memory	Yes. Flash memory storage limited only by available memory ⁽¹⁾
Type	TFT	UniNet network	Client/Server
Resolution	XGA, 1024x768 pixel	Alarms	1024
Size	15"diagonal (304x228 mm)	Event list	1024
Colors	64K	Password	Yes
Backlight	CCFL, 50000 h ^(note 1)	Hardware RTC	Yes, battery backed
Brightness	200 cd/m ² typ.	Screen saver	Yes
Dimming	Yes	Buzzer	Yes, audible feedback for touch screen
Memory		Battery	3 V 285 mA Lithium, non rechargeable, user replaceable, RENATA model CR2430. Replace with same component or equivalent.
User memory	64 MB Flash Card	Ratings	
Alternate user memory	Optional removable 32/64 MB SSFDC memory card	Power supply voltage	18 - 30 VDC
Front panel		Current consumption	Max 1.5 A at 24 VDC
Touch screen	Analog resistive	Fuse	Automatic
Function keys	-	Weight	Approx 4.3 Kg
System keys	-	Environmental Conditions	
User LED's	-	Operating temperature	0 to 45 °C
System LED's	-	Storage temperature	-20 to +70 °C
Interfaces		Operating and storage humidity	5 – 85 % RH non-condensing
PC/Printer port	Yes	Protection class	IP20
PLC port	RS-232, RS-485, RS-422, 20 mA Current Loop	Dimensions	
Ethernet port	10/100 Mbit	Faceplate LxH	436x347 mm (17.16x13.66")
USB port	Host version 1.1 ⁽¹⁾	Cutout AxB	381x296 mm (15.00x11.65 ")
Aux port (fieldbus)	Yes, with optional modules	Mounting depth C	88mm/3.46"
DX port (video input)	Yes	Faceplate thickness D	6mm (0.24")
Serial programming speed	9600 – 38400 bps	Dimensions box	
Slot for Local I/O	-	Faceplate HxL	329mm/12.95" 418mm/16.45"
Functionality		Mounting depth C	94mm/3.7"
Vector graphics	Yes		
Dual driver capability	Yes		
Video input	Yes (optional)		
Data acquisition and trends	Yes		

Note 1: operation of the built-in USB interface and recipe storage to flash memory require an appropriate firmware version and use of Designer 6.07 or higher.

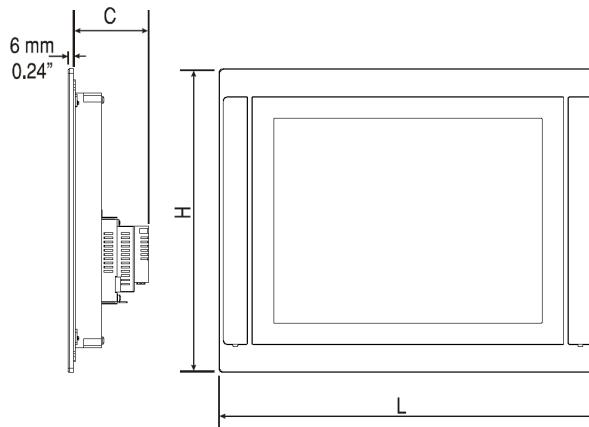

The product is designed for installation in residential environments in compliance with the regulations:

Emitted interference & Noise immunity: EN 55022 (CISPR 22)(Class B) EN 55024, EN 50090-2-2 + EN 50090-2-2/A1, EN 60669-2-1, EN 61000-6-1, EN 61000-6-2 , EN 61000-6-3

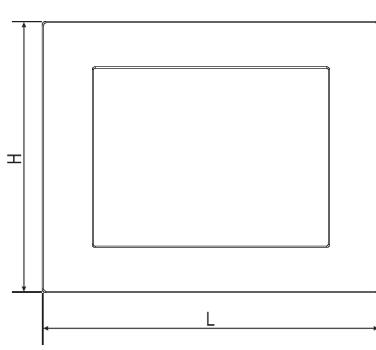

- 1 Power
- 2 Aux Port
- 3 PLC Port
- 4 PC/Printer Port
- 5 Ethernet Port (only for programming)
- 6 USB port for flash memory
